

Latipay 2.0 Shopify installation document

Latipay utilises Shopify's [Hosted Payment](#) SDK. Users can be offered to pay with Latipay 2.0 the Shopify's checkout.

How it works

Once enabled customers can select to pay with Latipay 2.0 in the Shopify Checkout.

Payment method

All transactions are secure and encrypted.

Latipay 2.0

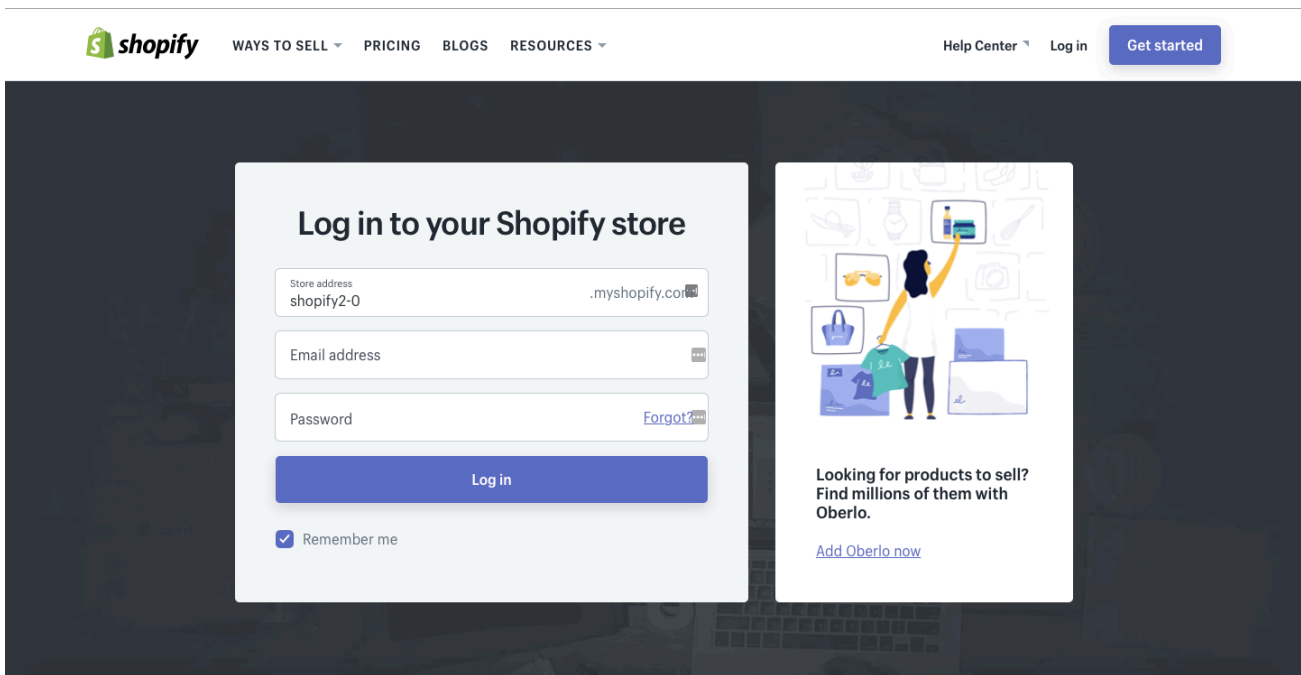

After clicking "Complete order", you will be redirected to Latipay 2.0 to complete your purchase securely.

Once confirming Latipay 2.0 as a payment option, the user is redirected to Latipay's hosted payment page to complete the payment

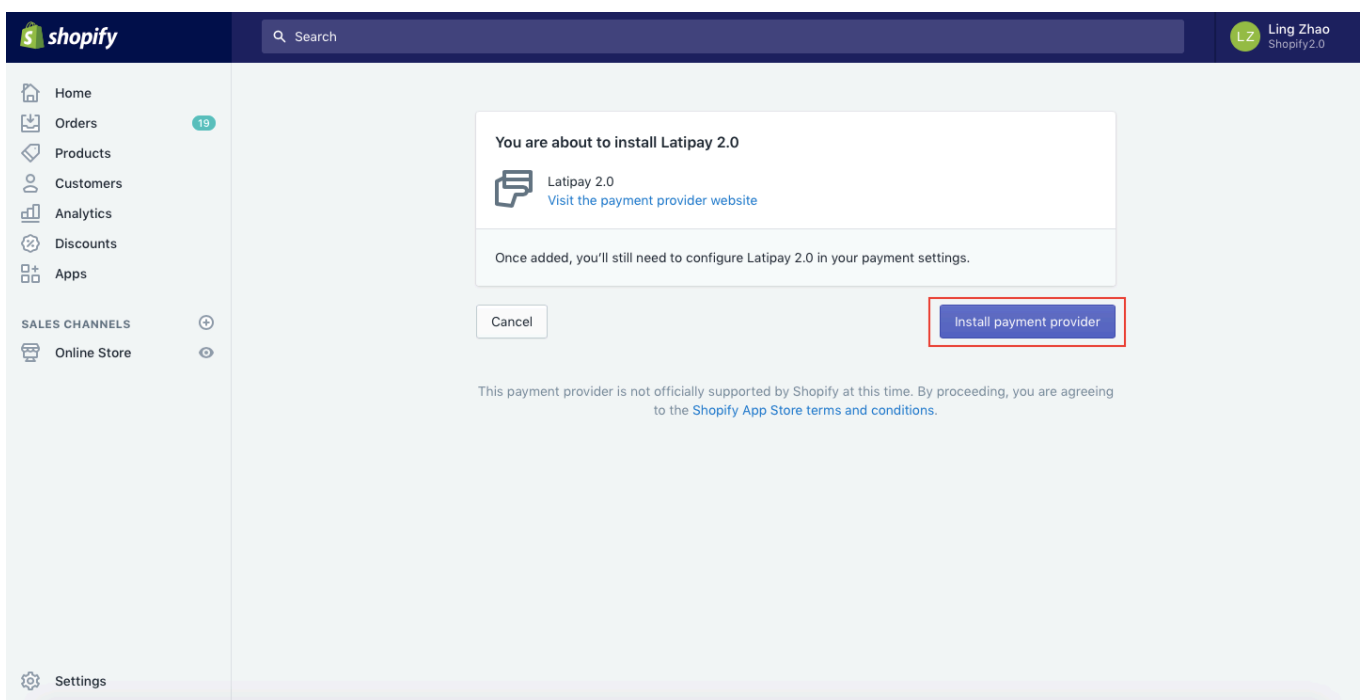

How to configure the plugin

The plugin is installed by visiting the installation URL. The current installation URL is:
https://www.shopify.com/login?redirect=%2Fadmin%2Fauthorize_gateway%2F1052510

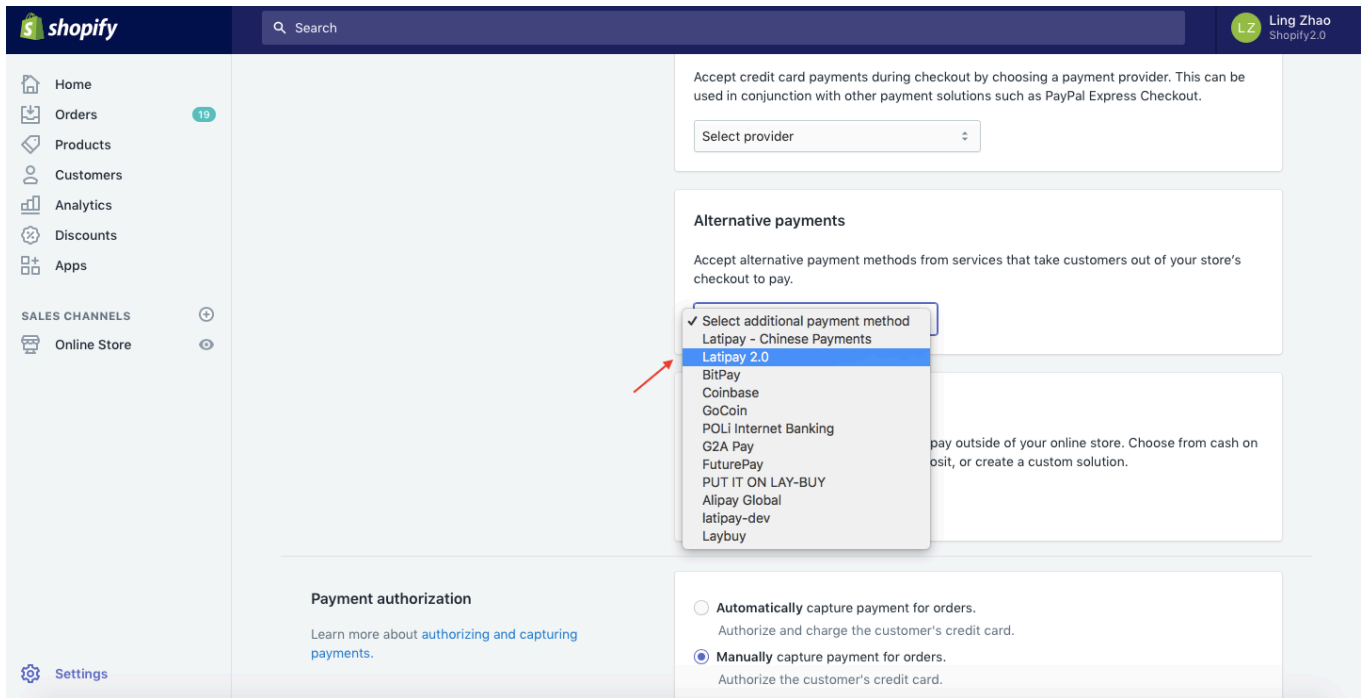

1. Click the URL and login your store with your own Shopify store login detail.

2. Add Latipay 2.0 as your payment gateway

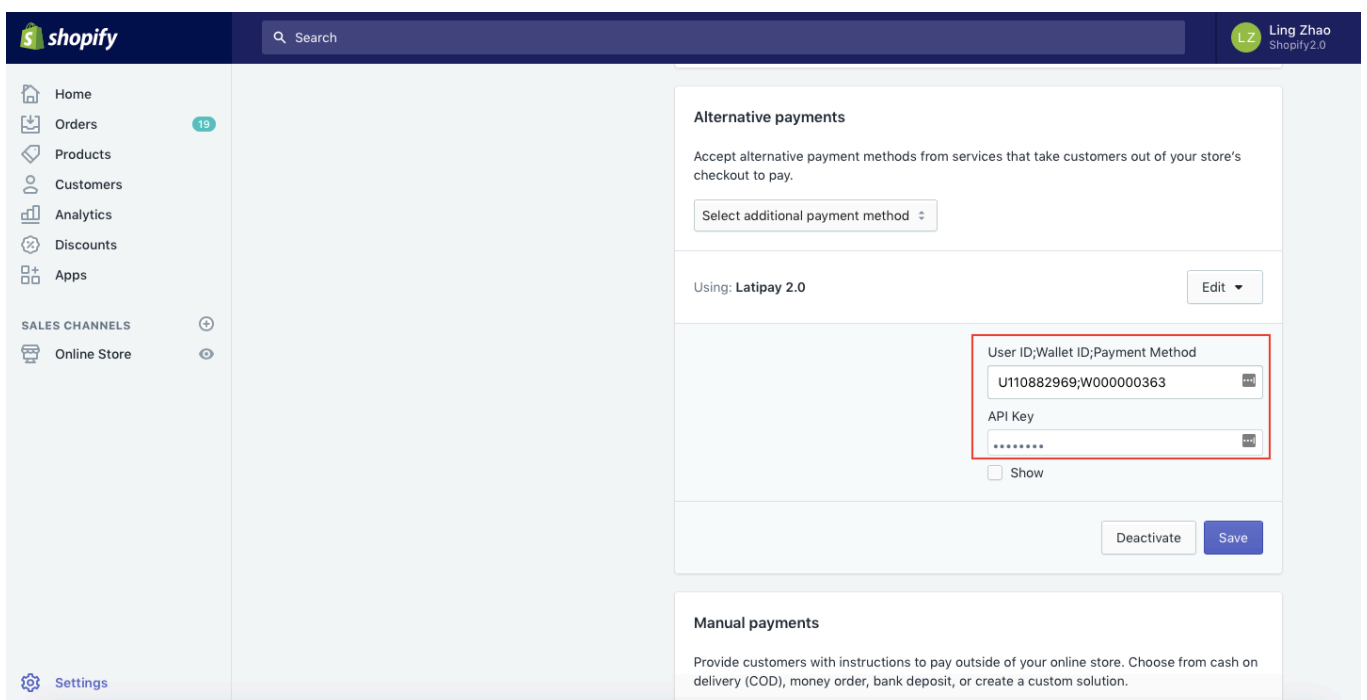

3. After successful installation, the payment gateway must be enabled in by navigating to **SETTINGS > PAYMENTS >** then scroll down to the alternative payments section. In the dropdown Latipay 2.0 should be available - select it.

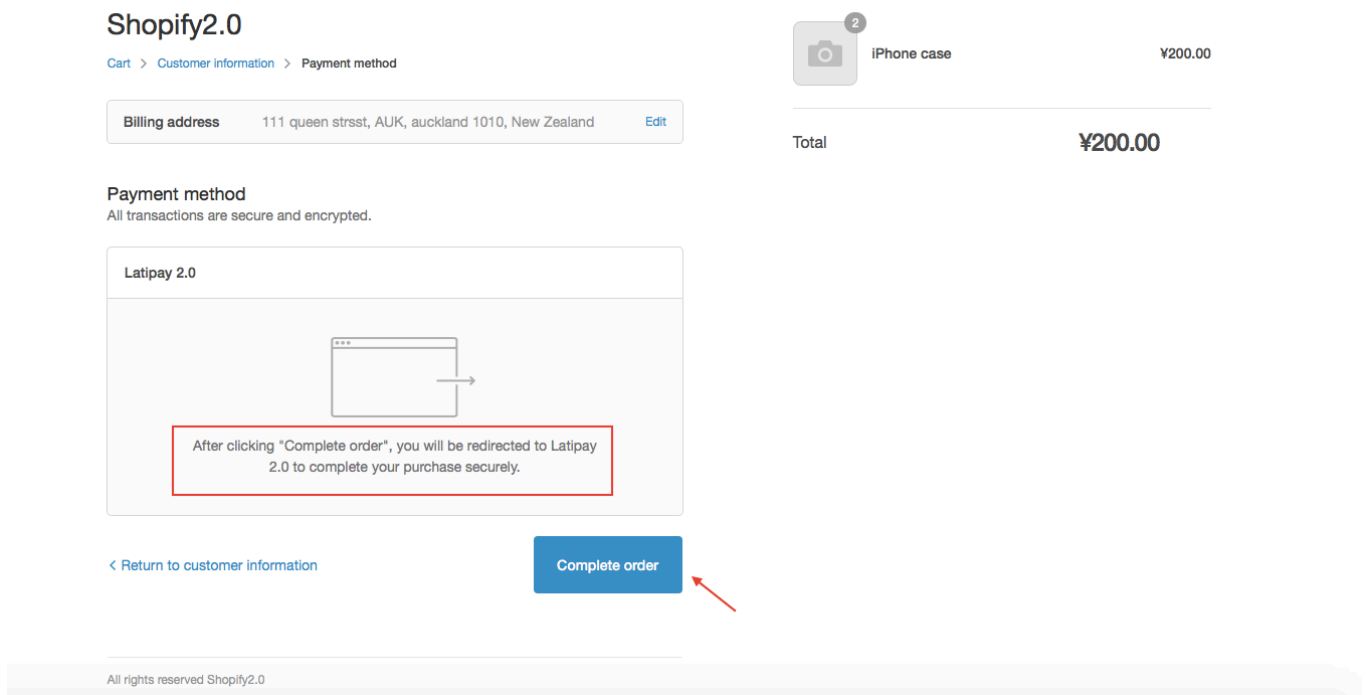

4. Input your Latipay UserID, WalletID and API Key, then your installation is finished.

Note: Your store currency must be available on your Latipay merchant account. You can find your **Latipay UserID, WalletID, and API key** in [Latipay Merchant Portal > Account > Show Hidden Values](#)

5. Once enabled, Latipay 2.0 will be available in the checkout.

6. Now your Chinese consumers can pay with CNY.
