

# MAGENTO 2.1.1

Latipay Version 2  
Installation Guide

## Installation Steps:

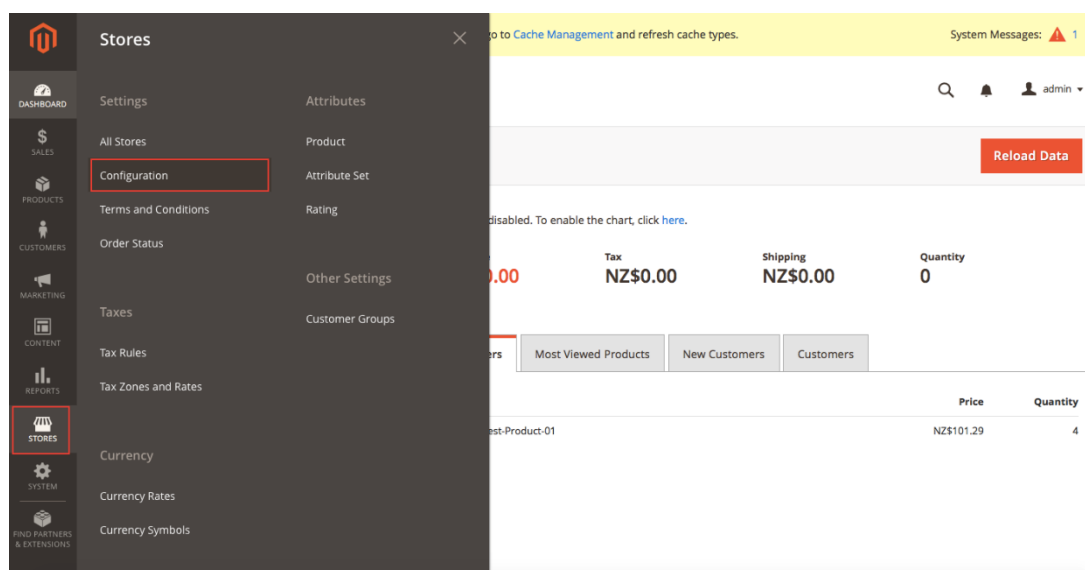

### Step 1.

Unzip the .zip file and copy the app folder into your website's root directory. (The root directory is usually under /www). Open command console, change the current directory to your root directory, then run the following command:

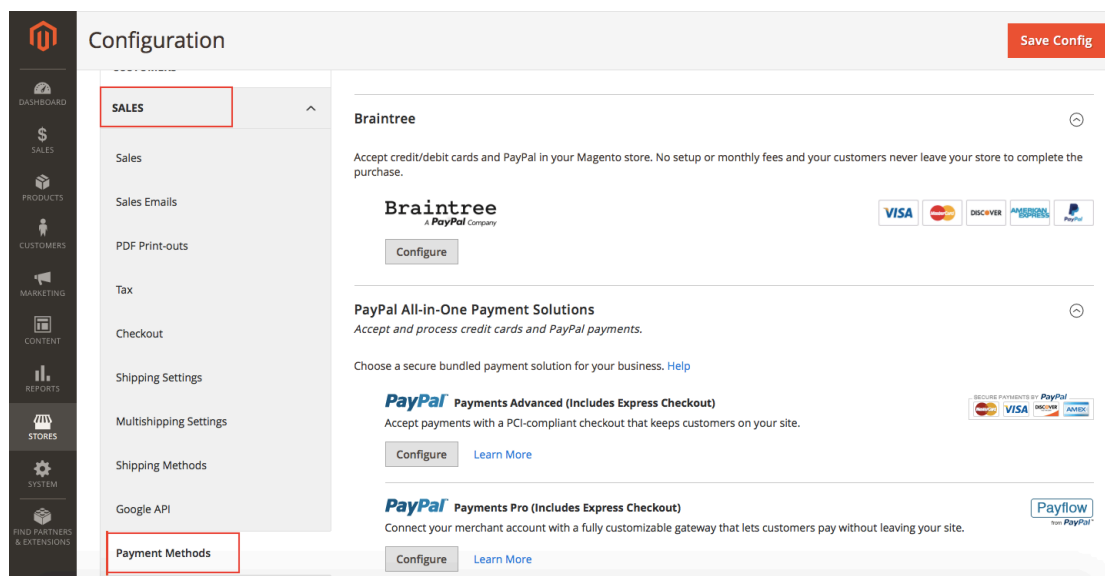

```
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy
```

### Step 2. Login website backend.

#### 3-1. Navigate to Stores -> Configuration

On Configuration page, click **SALES-> Payment Method**, then find Latipay related fields

#### 3-3. Set Latipay info

Configuration

Save Config
