

MAGENTO 1.9.2.4

Latipay Version 2
Installation Guide

Installation Steps:

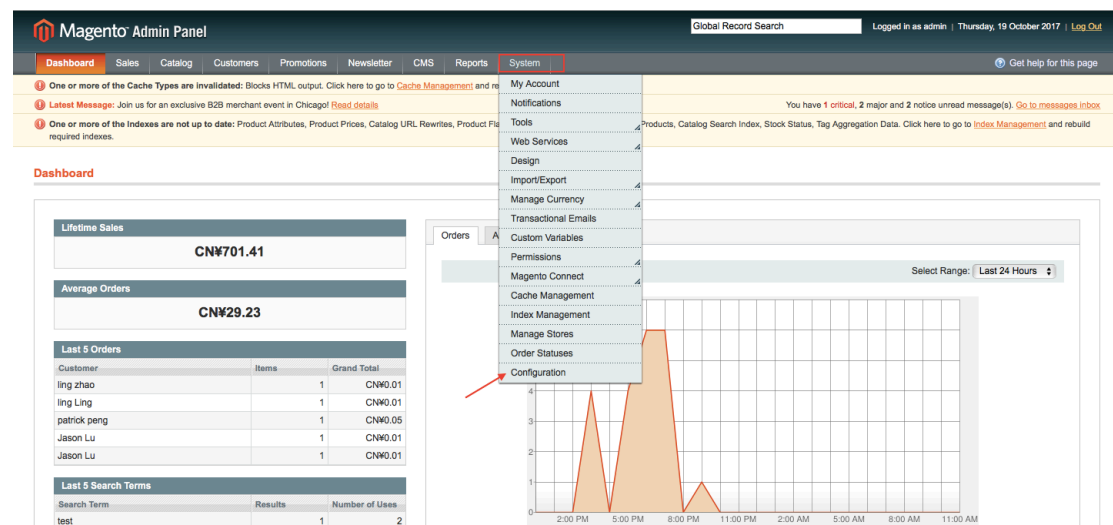

Step 1.

Unzip the .zip file and copy the app folder into your website's root directory. (The root directory is usually under /www). Open command console, change the current directory to your root directory, then run the following command:

```
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy
```

Step 2. Login website backend.

2-1. Navigate to System -> Configuration

On Configuration page, click **SALES-> Payment Method**, then find Latipay related fields to edit

The screenshot shows the Magento Configuration page for the Latipay payment method. The left sidebar contains a tree view of configuration sections, with 'Payment Methods' highlighted. The main content area shows the configuration for the 'Latipay' payment method. The 'Enabled' checkbox is checked. The 'Title' field is set to 'Latipay'. The 'Transaction URL' field is set to 'https://api-staging.latipay.net/v2/transaction'. The 'Wallet ID' field is set to 'W199626166'. The 'User ID' field is set to 'U184997582'. The 'API Key' field is set to '0494S8UR7w'. The 'New order status' is set to 'Pending'. The 'Payment from applicable countries' is set to 'All Allowed Countries'. The 'Payment from Specific countries' field is empty.

- **Transaction URL:** Input 'https://api.latipay.net/v2/transaction' for real business and 'https://api-staging.latipay.net/v2/transaction' for testing purpose.
- **Wallet Id, User ID, API Key:** Input related info, if not clear, please turn to our Accounting Manager for help.

After install success:

After install successful, you may choose WeChat pay/ Alipay/ Online Banking as payment method. System set the WeChat Pay as default payment method.
